It's All About The Quality

Your EverRest Extreme Comfort® 16 SEER and 18 SEER Air Conditioning or Heat Pump System is built with the best quality materials and is designed to give you years of dependable service...no matter how hot the weather! It all starts with an ultra high-performance, energy-efficient, 2-stage Copeland® UltraTech scroll compressor, which operates in tandem with our high-efficiency coil. The coil is made of rifled refrigeration-grade copper tubing and corrugated aluminum fins designed to maximize surface area. And every EverRest Air Conditioner or Heat Pump comes with a liquid-line filter dryer to help prevent moisture and debris from entering the compressor. Together, these high-quality components cool your home effectively while saving you money on your energy bills!

16 & 18 SEER

2-Stage Comfort

Every EverRest Extreme Comfort 16 SEER and 18 SEER Air Conditioner and Heat Pump is built with a Copeland® Two-Stage UltraTech Scroll Compressor. This compressor runs at low speed 80% of the time, which means it is less expensive to operate and gives more consistent comfort and better humidity control. We also engineer our 16 and 18 SEER units with sound-dampening features that help ensure that your system doesn't interfere with a good night's sleep. Add some sound deadening insulation and your EverRest Extreme Comfort Energy-Efficient 18 SEER unit will keep you cool and comfortable while staying quiet and ultra energy efficient!

Good For Your Home

Your new EverRest energy efficient air conditioner can not only provide money saving cooling performance, which is good for *your* home -- but is available with R-410A refrigerant, which is good for *our* home...Earth. R-410A does not contain

SEER

"The Peak of Home Comfort"

Efficiency Defined

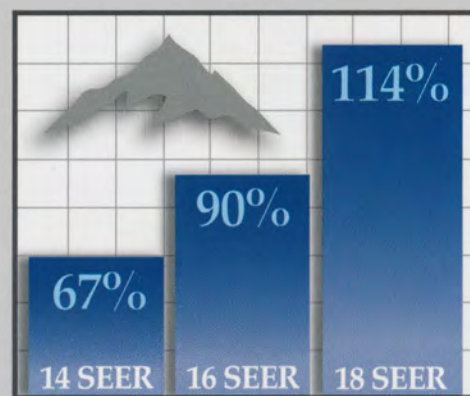

Your new EverRest Extreme Comfort Air Conditioning or Heat Pump System is designed for high-efficiency performance.

SEER stands for Seasonal Energy Efficiency Ratio, a measure used by the U.S. Department of Energy to rate the efficiency of air conditioners and heat pumps. The higher the SEER, the greater the efficiency and the lower the operating costs. Compared to the 10 SEER units found in many older homes, your ultra energy-efficient EverRest Extreme Comfort air conditioner or heat pump can provide significant savings on your electric bill.

Working Hard. Saving Money.

If your current system is 10 to 15 years old, the actual efficiency rating could have decreased by 16% to 20%. Even if you had a 10 SEER unit, a 16% loss would lower the efficiency to an 8.4 SEER. This means a new high efficiency air conditioner or heat pump could deliver up to a 114%* improvement in efficiency, which would basically cut your cooling cost more than half.

Potential Efficiency Improvement

Good For Our Home

chlorine, and is specifically designed not to harm Earth's ozone layer. R-410A is approved for use in residential cooling systems by the U.S Environmental Protection Agency and is available in all EverRest Extreme Comfort air conditioning units.

* (18 SEER - 8.4 SEER) / 8.4 SEER results in a 114.28% improvement in efficiency.

EVERREST
EXTREME COMFORT

16 SEER and 18 SEER Ultra-High Performance

With Earth-Friendly R-410A Refrigerant

Air Conditioning & Heat Pump Features

- Environmentally-friendly R-410A refrigerant
- High-efficiency 16 or 18 SEER cooling performance
- Lifetime Unit Replacement Limited Warranty
- 10-Year Parts Limited Warranty
- A 2-Stage UltraTech Copeland® Scroll compressor
- Copeland® ComfortAlert™ diagnostics
- Quiet operation ensured by:
 - A high-density foam compressor sound blanket
 - A two-speed condenser fan motor
 - Unique sound control top
 - A wire fan discharge grille
- A factory-installed filter dryer, for longer system life
- Easy-access design, making the unit easy to service
- A louvered cabinet made of heavy-gauge galvanized steel that protects the coil, while its appliance-quality, post-paint finish resists the effects of weather and time
- High - and low - pressure switches
- Performance certified in accordance with the Air Conditioning and Refrigeration Institute and Electronic Testing Laboratories

Guaranteed Quality

With the exceptional materials, engineering and workmanship that are part of every EverRest Extreme Comfort brand product, we confidently back our 18 SEER Air Conditioners with reassuringly strong warranties. Talk to your EverRest Dealer for all the details.

A Tremendous Advantage When Purchasing an EverRest Extreme Comfort® System...

It's installed by an EverRest ExtremeCare® Performance Dealer. You can purchase the best equipment in the world but if it isn't installed properly it can cost more to operate than that old worn out system you replace. Over the life of a new air conditioning and heating system

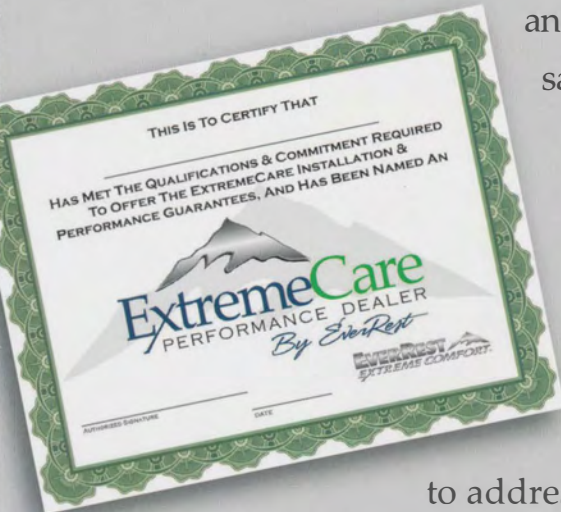

an inferior installation could, in fact, cause you to sacrifice over \$5,000 in utility savings that might have been realized with an installation from an ExtremeCare® Performance Dealer. And this doesn't even take into account how a poor installation can reduce the life of your new system, reduce the comfort and performance and cause unnecessary breakdowns.

ExtremeCare® Performance Dealers have been trained to address these areas when installing your new system:

- *Maximizing Comfort* • *Minimizing Operating Cost* • *Safe Operation*
- *Healthier Indoor Air* • *Quiet System Performance*

EverRest Extreme Comfort® Air Conditioners. Guaranteed Performance For Your Home.

The compressor in your new EverRest Extreme Comfort® 16 or 18 SEER Air Conditioning or Heat Pump system is covered by a Limited Lifetime Warranty. If the compressor ever fails, a new EverRest air conditioning or heat pump unit will be provided to the original purchaser of the unit as long as they live in the single-family residence. (Online registration required within 60 days of installation). All remaining parts are covered by a 10-Year Limited Warranty... **Guaranteed!** (Certain terms apply. Talk to your local EverRest Dealer for all the details).

Only The Best Dealers.

EverRest Extreme Comfort® home comfort systems are also installed by some of the best dealers in the country when it comes to installation procedures, product knowledge, and service after-the-sale.

EverRest dealers are hand picked, trained, and committed to giving each customer a super high quality product, a highly professional installation, "over-the-top" service and performance guarantees.

EverRest's history of quality stands way above the pack. Our equipment success rate is among the highest in the industry. Great equipment, great dealers and tip-top warranties... it makes the choice easy...EverRest!

EverRest Extreme Comfort® Home Comfort Systems Are Backed By The Strongest Warranties In The Industry.

To give you long term peace of mind, every EverRest Extreme Comfort® Home Comfort System is protected with a remarkably strong warranty. In fact, it's the industry leader. All EverRest Extreme Comfort® 16 SEER and 18 SEER, R-410A air conditioners and heat pumps come with a **Lifetime Unit Replacement Limited Warranty** in addition to a 10 Year Limited Warranty on all remaining functional parts. We're proud to stand behind every EverRest Home Comfort System...so talk to your local EverRest dealer for all the details.

"The Peak of Home Comfort"

EverRest. It Doesn't Get Any Better Than The Top.

There's only one place that can be called the "Top of the World". Mt. Everest. There's only one brand that can be called the top quality Home Comfort System. EverRest Extreme Comfort®. EverRest brings you premium equipment that has earned the following:

- Ranked #1 in Value by the Leading Independent Global Information and Research Firm!
- Received the TOP Rating for Customer Satisfaction by that same firm!
- The industry's HIGHEST Heat Pump HSPF rating by Independent labs.
- The industry's only "Never Failed"™ Heat Exchanger design.
- A Compressor Success Rate around 28% better than industry average.
