Reliability And Long Life

Your EverRest Extreme Comfort® 95% AFUE Furnace is built with the best quality materials and is designed to give you years of dependable service!

The heart of any furnace is the heat exchanger... and this EverRest unit has the only "Never Failed"™ Heat Exchanger in the industry. The patented TuffTube aluminized-steel tubular primary heat exchanger in every EverRest 95% furnace has been designed to deliver the highest money-saving efficiencies, minimize corrosion and virtually eliminate the potential for leakage. Coupled with a stainless steel secondary heat exchanger, you can rest assured you'll get maximum comfort and savings!

In fact, the reliability of these furnaces allows us to give you a Lifetime Heat Exchanger Warranty with any 95% AFUE furnace you choose. (Talk to your EverRest Dealer for Details).

Quiet Comfort

The components of your EverRest Extreme Comfort® 95% AFUE Furnace have been specially selected to reduce the noise levels common in many other furnaces.

Many standard furnaces run "all on" or "all off," but an EverRest 95% furnace runs most of the time in the whisper-quiet, low-heat capacity on most days...with such low noise levels you'll hardly even know it's on!

And every EverRest furnace is run-tested at the factory before it ships, to insure it meets our quality standards!

Extreme Service

EverRest Extreme Service...it's giving you the best product, a professional installation, "over-the-top" service and performance guarantees for your peace of mind. Don't settle for anything less than

"The Peak of Home Comfort"

Efficiency Defined

AFUE (Annual Fuel Utilization Efficiency) measures the amount of heat actually delivered to your house...and this EverRest 95% AFUE furnace delivers *over 95 cents out of every energy dollar to directly heat your home!* And unlike conventional furnace technology, EverRest's advanced 2-stage technology eliminates the temperature swings - that result from abrupt stops-and-starts of the furnace - by operating at a low heating stage the majority of the time. This enables your EverRest 95% AFUE furnace to pleasantly increase the temperature of your home. And if extra heat is needed on those really frigid days, this furnace will shift into high stage to quickly and efficiently warm your home to the desired temperature, then quietly shift back to low.

AFUE

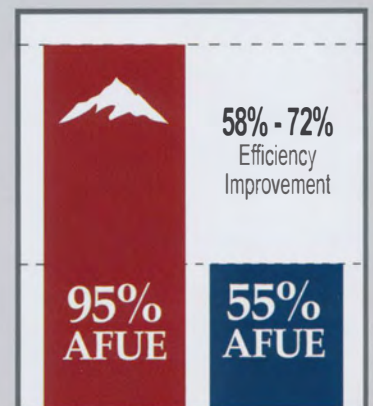

the best... EverRest Extreme Comfort® systems installed and maintained by EverRest Dealers. The ultimate in quality, efficiency and peace of mind before and after the sale.

Working Hard. Saving Money.

If your current furnace is 10 to 15 years old, the efficiency rating is probably around 55-60% AFUE. Compare that to the 95% AFUE rating of this furnace and you begin to get an idea of the potential savings. This means a new EverRest 95% furnace could deliver a 58% to 72% improvement in efficiency!

*(95% - 55%) / 55% results in a 72% improvement in efficiency.

Potential Efficiency Improvement

Multi-Speed

Features

A Tremendous Advantage When Purchasing an EverRest Extreme Comfort® System...

It's installed by an EverRest ExtremeCare® Performance Dealer. You can purchase the best equipment in the world but if it isn't installed properly it can cost more to operate than that old worn out system you replace. Over the life of a new heating and air conditioning system

an inferior installation could, in fact, cause you to sacrifice over \$5,000 in utility savings that might have been realized with an installation from an ExtremeCare® Performance Dealer. And this doesn't even take into account how a poor installation can reduce the life of your new system, reduce the comfort and performance and cause unnecessary breakdowns.

ExtremeCare® Performance Dealers have been trained to address these areas when installing your new system:

- Maximizing Comfort
- Minimizing Operating Cost
- Safe Operation
- Healthier Indoor Air
- Quiet System Performance

EverRest Extreme Comfort® 95% AFUE Furnaces. Guaranteed Performance For Your Home.

The Heat Exchanger in every new EverRest Extreme Comfort® 95% AFUE Furnace is covered by a Limited Lifetime Warranty. If the Heat Exchanger should fail in the first 10 years of service, *we'll give you a new furnace!* If it fails after the first 10 years - for the life of the unit - we'll replace the heat exchanger... **Guaranteed!** (Certain terms apply. Talk to your local EverRest Dealer for all the details). All other parts to your new EverRest 95% AFUE Furnace are warranted for 10 full years from the date of installation... **GUARANTEED!**

Only The Best Dealers.

EverRest Extreme Comfort® home comfort systems are also installed by some of the best dealers in the country when it comes to installation procedures, product knowledge, and service after-the-sale.

EverRest dealers are hand picked, trained, and committed to giving each customer a super high quality product, a highly professional installation, "over-the-top" service and performance guarantees.

EverRest's history of quality stands way above the pack. Our equipment success rate is among the highest in the industry. Great equipment, great dealers and tip-top warranties... it makes the choice easy...EverRest!

EverRest Extreme Comfort® Home Comfort Systems Are Backed By The Strongest Warranties In The Industry.

To give you long term peace of mind, this EverRest Extreme Comfort® 95% AFUE Furnace is protected with a remarkably strong warranty. In fact, it's the industry leader. All EverRest Extreme Comfort® 95% furnaces have a 10 Year Unit Replacement Limited Warranty, a Limited Lifetime Heat Exchanger Warranty, *and* a 10 Year Warranty on all remaining functional parts. We're proud to stand behind every EverRest 95% furnace... so talk to your local EverRest dealer for all the details.
